Short presentation of **Bordos.ArtWorks**:

Bordos.ArtWorks is the artist name of László Zsolt Bordos, a 3d artist living in Budapest, Hungary. He started as a VJ, performing in the underground party culture of Budapest, since year 2000. He studied at the Hungarian Academy of Fine Arts in Budapest and at MediaLab UIAH (University of Art and Design) in Helsinki. With the time his artist name became a famous company: Bordos.ArtWorks - <http://bordos.eu/> -, which created the first, high resolution 3d animations for high resolution indoor- and outdoor projections in Hungary. With his early 3d-vjing (2000-2004), outrageous video projections (2005-2006) and with his first video mapping project made at Heavent Paris (2007), he belongs to the first generation of video mapping artists.

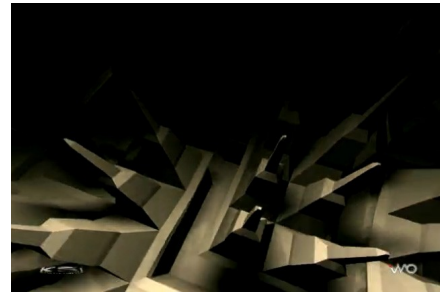

Having more and more projects, year by year he started to invite his friends-artists into his projects. Main partners are Ivó Kovács - <http://ivo3d.hu> and Dániel Szalkó - <http://danielszalko.com>

Since year 2010 he is running the projects under the name: Bordos.ArtWorks and Invited Artists. Today, Bordos.ArtWorks and Invited Artists are internationally recognized as eminent representatives of video projection mapping.
